

Welcome to Teledent.com.au Dental Imaging Diagnostics

How the site works:

Please call 03 9816 9026 if you have questions.

STEP ONE: log in

From Teledent's home page (www.teledent.com.au), you can access your secure Patient and Sessions Work page

Enter your email address and password.

The screenshot shows a login form on a green background. At the top, it says "GET A REPORT". Below that are two input fields: "Email" and "Password". A "LOG IN" button is positioned below the password field, with a "Forgot Password" link underneath it. At the bottom of the form, there is a "CREATE AN ACCOUNT" button.

Step two: check progress of your reports or upload a new case

Once logged in, you will have a choice of:

- seeing the progress status of previous cases submitted previously to Teledent
- download the prepared radiology reports
- resend receipts for your financial records
- submitting a new case for reporting
- changing your password

[GET REPORT](#)

Panoramic report

\$ 88.00

A report on a standard 2D panoramic image (pricing includes GST)

[Download sample report](#)

[GET REPORT](#)

Select the report type (this example shows small/medium FOV cone beam) and

- enter your name
- enter the required patient information
- it is important to complete the clinical information, including identifying the primary reason for requesting the report. The radiologist will always address the region of interest and clinical purpose firstly, and then complete a full pathology review.
- zip the dicom datafile - the folder MUST be zipped so that it can be opened at the other end (see separate instructions)

-

You can upload the files directly to Teledent by clicking on the Upload button in the Patient Files box (please be aware the larger the file the longer it takes to upload the file. Size of file and your internet speed determine the amount of time).

Acceptable file types are multi-file dicom (dcm) files, or Invivo (inv) files. Multi-file DICOM folders MUST be compressed (zipped) prior to uploading.

For OPGs and cephs- please upload a HIGH resolution jpeg image or the dicom data

- click on box to browse to find patient datafile or drag file into the top box

- you can add additional images, previous reports, clinical photos into the lower box. Any digital file can be included with a case such as Word documents, JPEGs, PDF, etc.
